Summary

Motivated and dedicated Software Developer with 1 year of hands-on experience at SkillDukan, specializing in web application design, front-end and back-end development, and software maintenance. Proficient in C, Java, HTML/CSS, JavaScript, MySQL, React, Bootstrap, and PHP. Proven ability to collaborate effectively in team settings, consistently meeting project expectations and delivering high-quality results. Eager to leverage my MCA background and practical expertise in a dynamic role that fosters innovation and continuous learning. Recognized for professionalism, teamwork, and a strong commitment to excellence.

Skills

C, Java, HTML/CSS, JavaScript, React, Bootstrap, PHP, MySQL, APIs and Web Services (REST, SOAP), Git

Experience

SkillDukan — Hyderabad

Software Developer — 05/2023 - 06/2024

Worked on developing and implementing order management systems

- Designed and developed responsive web applications, handling both front-end (HTML/CSS, JavaScript, React) and back-end (PHP, MySQL) development.
- Managed software maintenance, optimization, and database administration to ensure high performance and secure data handling.
- Collaborated with cross-functional teams to deliver projects on time, meeting client expectations.
- Gained experience in debugging, troubleshooting, and resolving technical issues to ensure software reliability.

Projects

PitchHere

Developed *PitchHere*, an investment platform designed to connect entrepreneurs with investors. The platform facilitates idea pitching, investor-startup matching, and ensures secure data management, providing a responsive and user-friendly experience. This project demonstrated proficiency in modern web development and backend techniques.

- **Technology Used:** HTML/CSS, Bootstrap, JavaScript, PHP, SQL
- **Team Project:** Company-based Team Project
- **Website:** https://pitchhere.in/

Ecoexcellence

Ecoexcellence is a transformative initiative under the Victorian Energy Upgrades (VEU) program aimed at promoting energy efficiency among households and businesses in Victoria, Australia. The project incentivizes the adoption of energy-efficient equipment, reducing energy consumption, greenhouse gas emissions, and lowering energy bills.

- **Technology Used:** HTML/CSS, JavaScript, PHP, MySQL, Bootstrap
